

Matteo Pignatti (matteo.pignatti@ssuos.difesa.it) is an assistant professor at the Center for Higher Defence Studies (CASD) – School of Advanced Defence Studies, for the scientific disciplinary sector Law and Economics - IUS/05. He obtained a Ph.D. in Law (XXV cycle) at the University of Turin with a thesis on the legal and economic effects of the central purchasing bodies' contractual activity. During his Ph.D., he cooperated with the legal department of Consip S.p.A. (Italian Ministry of Economy and Finance) and participated in the Higher Education Project (Legal Sciences Area): "Training Paths in the Aggregation of Public Contracts" as part of the Higher Education Directive. He is qualified as lawyer (Court of Appeal of Turin - November 21, 2012).

With Prof. Christopher R. Yukins (George Washington University School of Law) and Prof. G. M. Racca (University of Turin), he collaborated in the research projects "Integrity and Efficiency in Sustainable Public Contracts. Balancing Corruption Concerns in Public Procurement Internationally" (2014) and "Joint Public Procurement and Innovation. Lessons Across Borders" (2019), as part of the Public Contract in Legal Globalisation network.

He is a Research Fellow in the Competence Center on Acquis at the University Institute for European Studies (IUSE) and has carried out research in projects of national and European relevance, such as "Healthy Ageing and Public Procurement of Innovation," funded by the European Commission (DG Enterprise under call ENT/CIP/11/C/N02C011); "Public Procurement of Innovation (PPI) in Central Europe - PPI2INNOVATE" (<http://www.interreg-central.eu/Content.Node/PPI2Innovate.html>, funded by the Interreg Central Europe program); "Smart Circular Procurement - CircPro" (<https://www.interregeurope.eu/circpro/>, funded by the Interreg Europe program); "Financing impact on regional development of cultural heritage valorisation" - Finch - (<https://www.interregeurope.eu/finch/> - Funded by the Interreg Europe program); BIOSUVEG (Innovative biostimulants for sustainable fruit production from vegetable crops); VEG-ADAPT (Adapting Mediterranean vegetable crops to climate change-induced multiple stress).

His scientific research focuses on the cycle of public contracts as a whole, its digitalisation and related legal profiles (environmental and social sustainability, contractual clauses, supervision and liability), partnerships (public-public and public-private) as an instrument of economic development, economic freedoms in the European and national legal order and market-distorting conduct. More recently, he has broadened his field of research focusing on the relationship between the financial sector and the regulation of organisational and contractual models of research and development activity, European economic governance and the legal relevance of the fintech.
